

## Elmos: Share buyback program to start as announced on February 24, 2026

*Leverkusen, February 23, 2026:* The share buyback program announced by Elmos Semiconductor SE (FSE: ELG) on February 4, 2026 will start as scheduled on February 24, 2026, following the publication of the preliminary 2025 financial results.

In early February, the Management Board and Supervisory Board resolved, as part of the further development of the company's distribution policy, to initiate a share buyback program with a total volume of up to 10.0 million Euro (excluding transaction costs). The buyback will be executed via the stock exchange in the period from February 24, 2026 to March 31, 2026.

The objective of the program is, within the framework of an attractive capital allocation strategy and in combination with the proposed 50% dividend increase for fiscal year 2025, to return a substantial portion of the net cash position to shareholders.

With the share buyback and the dividend increase, Elmos underlines its commitment to ensuring that shareholders participate appropriately and consistently in the company's success.

### About Elmos

Elmos has been developing intelligent microchip solutions for over 40 years, primarily for the automotive industry. As a fabless company and specialist for analog mixed-signal ICs, Elmos makes the mobility of the future safer, more comfortable and more efficient. The innovative products of Elmos enable reliable driver assistance systems, intelligent sensors, efficient motors and new LED lighting concepts in modern vehicles. As a market leader in cutting-edge applications, Elmos is powering global megatrends such as autonomous driving, electromobility and software-defined vehicles.

### Note

This release contains forward-looking statements that are based on assumptions and estimates made by the Elmos management. Even though we assume the underlying expectations of the forward-looking statements to be realistic, we cannot guarantee the expectations will prove right. The assumptions may carry risks and uncertainties, and as a result actual events may differ materially from the forward-looking statements. Among the factors that could cause such differences are changes in general economic and business conditions, fluctuations of exchange rates and interest rates, the introduction of competing products, lack of acceptance of new products, and changes in business strategy. Elmos neither intends nor assumes any obligation to update its statements with respect to future events.
