

Investor Presentation Q1 2022

May 2022

ELMOS CORPORATE OVERVIEW

Corporate highlights

~7 Elmos ICs
on average in every new car

6 product segments:
Ranging, Optical, Sensor ICs, Motor Control,
Lighting, Safety/Power/Custom ICs

16 locations worldwide incl. 7 R&D centers
HQ located in Dortmund, Germany

>35 years experience in analog
mixed signal IC solutions

1,150 employees thereof 350+ product
developers & engineers

Sales breakdown FY 2021

Financial highlights FY 2021

322 million Euro sales
strong growth to new record levels

18.6 percent EBIT margin
impacted by allocation-related effects,
especially material price increases

60 million Euro CAPEX
mainly for the expansion of test capacities

72 percent equity ratio
emphasizing Elmos' financial solidity

>1 billion Euro market capitalization
(as of December 30, 2021)

ELMOS INNOVATIVE SOLUTIONS FOR GLOBAL MEGA TRENDS

elmos[®]

Leading innovator in future mobility

- #1 FOR ULTRASONIC ICs
- #1 FOR HVAC FLAPS
- #1 FOR GESTURE CONTROL
- #1 FOR AMBIENT AND REAR LIGHT

USER EXPERIENCE

ADAS & AUTONOMOUS DRIVING

ELECTRIFICATION

LIGHTING

HIGHLIGHTS IN Q1 2022

Ongoing dynamic and challenging market and geopolitical environment

Semiconductor market

The ongoing high demand for electronics in all industries and the associated allocation situation is continuing to have significant effects along the entire value chain.

In addition to limited global wafer capacities and pandemic-related shutdowns, the supply chain shortages and logistical challenges due to the war in the Ukraine have further intensified the situation.

The allocation of foundry capacities, supply bottlenecks for key components, material price increases and logistical challenges are continuing to impact the overall business performance.

Our focus is to secure sufficient wafer capacities from our foundries as the tight supply chains will continue in 2022 and most likely will also extend into 2023.

Impact of the war in the Ukraine

The direct impact of the war in the Ukraine is negligible for Elmos, as we do not directly ship any products to customers in Russia or the Ukraine.

However, the war in the Ukraine has massive impacts on global supply chains and logistics. We are in close contact with all of our suppliers and have contingency plans.

We are unable to quantify the potential indirect effects of the war to the global economy, but at this point in time, there is no need to adjust our 2022 forecast due to the war.

However, we are monitoring the situation and the direct and indirect effects of this war very closely and will update the markets, if this should be necessary.

Sale of wafer fab

On Dec. 14, 2021 we signed a sale and purchase agreement between Elmos and Silex Microsystems AB to transfer the Elmos wafer fab in Dortmund including a separate long-term supply agreement until at least 2027 for wafers produced at the Dortmund fab.

As a fabless company, Elmos now becomes more flexible to access latest foundry technologies and can better focus on its real strengths.

The transfer of the fab to Silex with new products and technologies provides a long-term perspective for the Dortmund wafer fab and its employees.

All organizational preparations and internal steps for the transfer and the closing are well on track. The closing of this transaction is subject to customary closing conditions and regulatory approvals.

SALES AND EBIT

Quarterly sales (in million Euro) & gross margin (in %)

- Sales in Q1 2022 increased significantly by 19.3 million Euro or 25.0% thanks to the ongoing high demand for Elmos semiconductors
- All product segments supported the growth to a new quarterly record level

Quarterly EBIT (in million Euro) & EBIT margin (in %)

- Increase in EBIT to 19.5 million Euro despite rising material prices as well as allocation- and pandemic-related effects
- EBIT margin at 20.2% – 4.4 percentage points higher year-over-year

CAPEX AND R&D EXPENSES

CAPEX¹ (in million Euro & in % of sales)

- **Capital expenditures** amounted to **11.1 million Euro**, still reflecting the planned expansion of our test capacities, especially in East Asia
- Overall, Q1 2022 **CAPEX to sales ratio** stood at **11.5%**

R&D expenses (in million Euro & in % of sales)

- **R&D expenses** continue to remain on a high level at **13.6 million Euro** or **14.1% of sales**
- After three months we are **fully on track with our New Design Win activities** with promising new projects in all product segments

¹Capital expenditures for intangible assets and property, plant and equipment less capitalized development expenses

CASH FLOW

Operating cash flow (in million Euro)

- **Strong cash flow from operations at 43.9 million Euro** supported by the high net result and a positive impact from working capital as well as tax adjustments originating from our 2020 results

Adjusted free cash flow¹ (in million Euro)

- Despite the ongoing higher CAPEX spending the **adjusted free cash flow reached 30.4 million Euro** thanks to the higher cash flow from operations
- The major **CAPEX program for the backend area** will continue to influence the **free cash flow**

¹Cash flow from operating activities less capital expenditures for/plus disposal of intangible assets and property, plant and equipment (including proceeds from additions to the scope of consolidation)

WORKING CAPITAL AND NET CASH/DEBT

Working capital¹ (in million Euro, at the end of the quarter)

- **Working capital** decreased in **Q1 2022** mainly due to increasing trade payables

Net cash/debt (in million Euro, at the end of the quarter)

- Due to the positive cash flow, we recorded a **net cash position of 19.0 million Euro** at the end of the first quarter 2022

¹Trade accounts receivables plus inventories less trade accounts payables

MARKET FORECAST

Automotive market

Light vehicle production in million units (IHS)¹

Estimated regional market development YOY (in %)¹

	Europe	North America	China
2021 vs 2020	-4%	0%	+5%
2022 vs 2021	+7%	+13%	+1%

GUIDANCE

Elmos FY 2022 guidance (as of May 3, 2022)

Guidance for FY 2022

Sales:	more than 400 million Euro
Operating EBIT margin:	21% \pm 2 percentage points
CAPEX (in % of sales):	17% \pm 2 percentage points
Adjusted operating free cash flow:	Positive above previous year (11.1 million Euro)
Ø exchange rate:	1.10 EUR/USD

Notes to guidance 2022:

The guidance for the full year 2022 does not include any effects from the potential closing of the sale of the Elmos wafer fab to Silex.

Besides current business performance and the order situation, the guidance is also based on the expectations and assumptions regarding general economic development and specific industry developments.

Expectations may be affected by market turbulence or global political and economic uncertainties, including the allocation in the semiconductor market, supply bottlenecks for key components, armed conflicts, as well as by the ongoing COVID-19 pandemic or similar.
