## Investor Presentation

elmos"

March 2024

## Elmos corporate overview

#### Corporate highlights

Elmos ICs on average in every new car produced

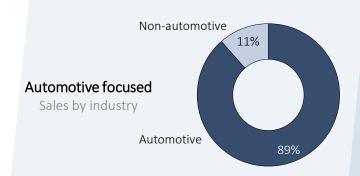

product segments
 Ranging, Sensor ICs, Motor Control,
 Lighting, Safety/Power/Custom ICs, Optical

main locations worldwide incl. 6 R&D centers; HQ located in Dortmund, Germany

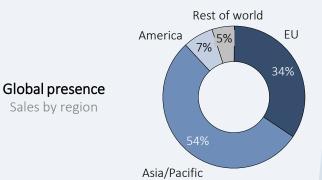

years experience in analog mixed signal IC solutions

>1,300 employees thereof ~450 product developers & engineers

#### Sales breakdown FY 2023

## elmos"

#### Financial highlights FY 2023

575 million Euro sales
3rd annual sales record in a row

percent EBIT margin
EBIT of 150.7 million Euro increased by 37% compared to the previous year

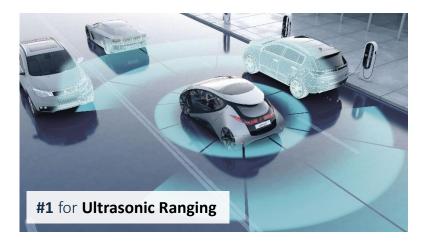

99.1 million Euro net income Earnings per share (EPS) 5.79 Euro

million Euro CAPEX mainly for the expansion of test capacities

**1.3** billion Euro market capitalization as of December 29, 2023

## Elmos IC solutions – enabling intelligent electronics

Elmos is a pioneer for innovative IC solutions and the world market leader for various automotive applications. Together with our global leading Tier1 & OEM partners, Elmos is the driving force of the mobility of the future.

## Highlights of fiscal year 2023

#### Record financial results and important structural improvements form a strong basis for future success

#### **Economic environment**

Fiscal year 2023 was affected by ongoing economic challenges and geopolitical crises, high inflation combined with higher interest rates.

The overall global recovery remains slow, with growing regional divergences. For 2023 the IMF estimates 3.1% global GDP growth and a shrinking economy in Germany (-0.3%) for 2023.<sup>1</sup>

Global inflation is forecast to decline steadily, due to tighter monetary policy. However, the IMF does not expect inflation to return to target levels until 2025 in most regions.

The situation on the labor market remains tight, especially for skilled workers and engineers.

#### Semiconductor market

In 2023, the overall semiconductor market was impacted by economic headwinds and weaker demand for consumer electronics and PCs, resulting in a projected decline of -9.4% (WSTS).<sup>2</sup>

The allocation situation and the supply bottlenecks in the global supply chains for automotive semiconductors have normalized during the course of 2023 and it is expected that the automotive semiconductor market grew by 19.2% in 2023.<sup>3</sup>

After three years of very dynamic growth, the automotive semiconductor market has now entered into a normalization phase with lower order levels and inventory adjustments.

Structurally, however, the demand for automotive semiconductors remains high due to the increasing number of intelligent electronics, digitalization and more safety and comfort features in modern vehicles.

## Strategic highlights

After the sale of our wafer fab, Elmos will become a fabless company. The regulatory approvals for the sale to Littelfuse were granted without any conditions in August 2023 and Elmos received a first payment of 37 million Euro in Q3 2023. Closing of the transaction with the transfer of the remaining purchase price of 56 million Euro is expected to be effective in December 2024.

The expansion of our testing capacities together with our testing partners in East Asia and the successful ramp of new products were important milestones in 2023. We now have a solid base for future volumes.

Another focus was the strengthening of our software competence and the expansion of the Elmos software organization as new applications and software-defined vehicles require a stronger link between hardware and software.

We have further improved our ESG activities. Based on our first Corporate Carbon Footprint, we have defined climate targets and are committed to reduce our own GHG emissions as a fabless company (Scope 1 & 2) by 40% until 2026 and to become carbon neutral by 2035.

<sup>&</sup>lt;sup>1</sup>International Monetary Fund (IMF) World Economic Outlook (January 2024)

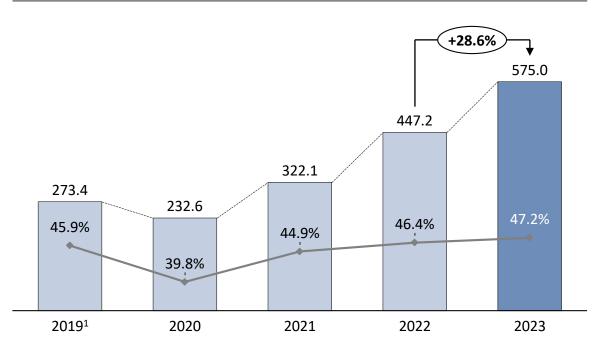

<sup>&</sup>lt;sup>2</sup>World Semiconductor Trade Statistics (WSTS) Semiconductor Market Forecast (November 2023)

## New record sales for the third consecutive year

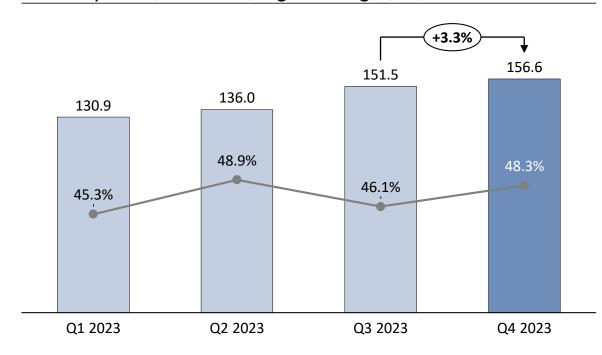

#### Annual sales (in million Euro) & gross margin (in %)

- In a challenging economic environment and despite the normalization of the supply & demand situation, Group sales increased by 28.6% YoY to a new record of 575.0 million Euro
- Third consecutive sales record supported by a high demand in all product segments
- Gross margin more or less stable, underlining conservative pricing strategy by Elmos during the allocation

#### Quarterly sales (in million Euro) & gross margin (in %)

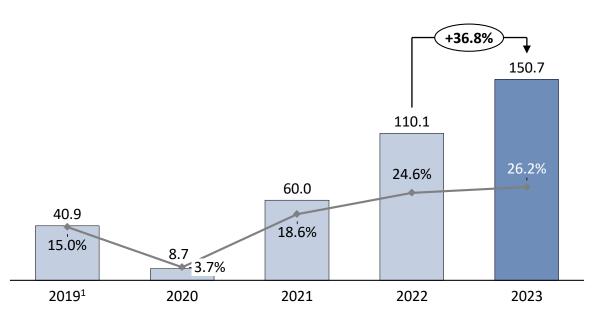

- Q4 2023 sales of 156.6 million Euro mark the 12<sup>th</sup> quarterly sales record in a row
- Q4 sales increased 24.7% YoY and also 3.3% vs. the high level of Q3 2023
- Gross margin of 48.3 % in Q4 2023 was influenced by typical one-time effects at year-end

<sup>1</sup>Continuing operations only.

## FY 2023 EBIT also reached new record levels

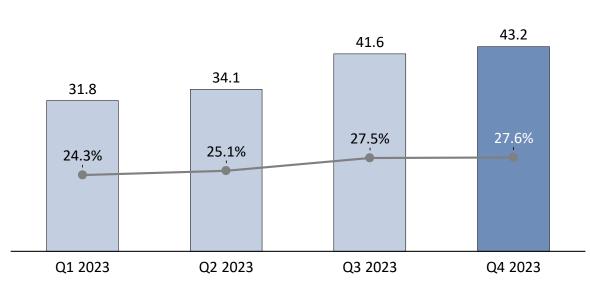

#### Annual EBIT (in million Euro) & EBIT margin (in %)

- EBIT of 150.7 million Euro increased by 37% compared YoY to a new record level
- **EBIT margin increased** significantly to **26.2%** of sales
- The EBIT margin came in at the **upper end of our full-year guidance** (EBIT guidance: 25% ± 2%-points of sales)

#### Quarterly EBIT (in million Euro) & EBIT margin (in %)

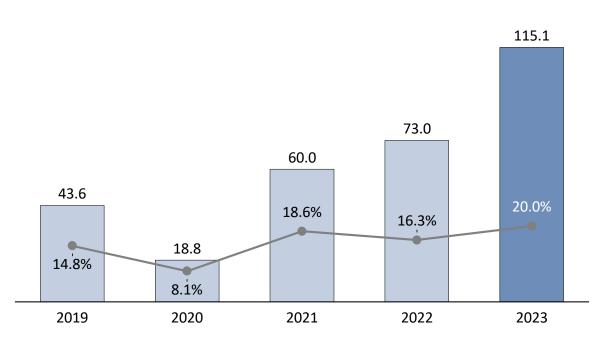

- The EBIT in Q4 2023 was also influenced by typical year-end one-time effects
- **EBIT margin** reached **27.6%** in Q4 2023

## Higher CAPEX and R&D expenses for future growth

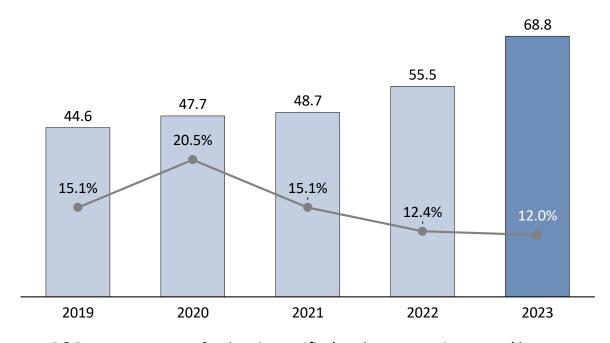

**CAPEX**<sup>1,2</sup> (in million Euro & in % of sales)

- Significantly higher investments of 115.1 million Euro in FY 2023 for the expansion of the testing capacity, especially at our external testing partners in East Asia
- FY 2023 CAPEX to sales ratio stood at 20.0%, in line with guidance (CAPEX guidance: 19% ± 2%-points of sales)
- After the significant expansion of testing capacities, we now have a solid setup for future volumes

**R&D expenses**<sup>2</sup> (in million Euro & in % of sales)

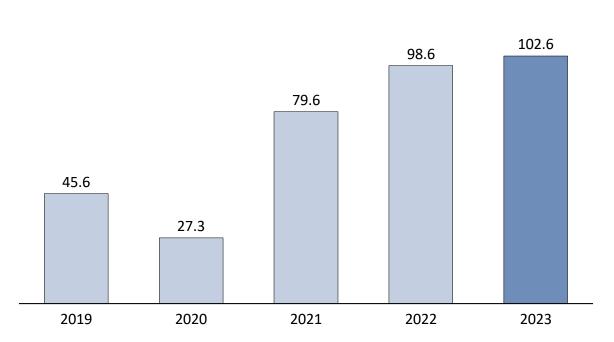

- R&D activities were further intensified and expenses increased by 13.3 million Euro to 68.8 million Euro
- However, due to the strong sales increase, the R&D ratio decreased to 12.0% of sales in FY 2023
- FY 2023 marks the 2<sup>nd</sup> highest year of design wins in the history of the company with attractive new Design Wins in all product segments

## Cash flow influenced by strong growth

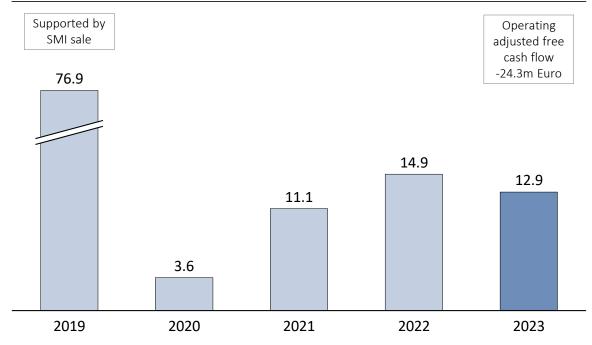

#### Operating cash flow<sup>1</sup> (in million Euro)

 The cash flow from operations in FY 2023 increased slightly YoY to 102.6 million Euro mainly due to higher earnings, net of higher working capital as a result of our strong growth

#### Adjusted free cash flow<sup>1,2</sup> (in million Euro)

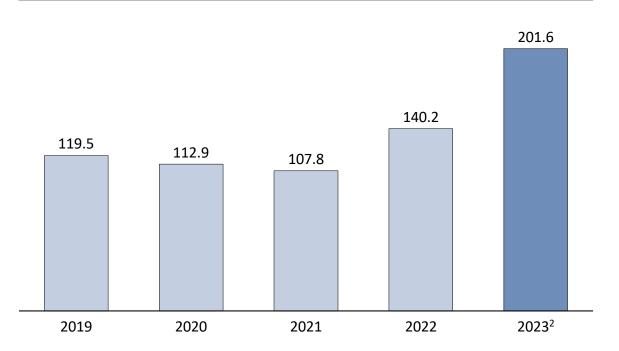

- The adjusted free cash flow of 12.9 million Euro was impacted by the high investments and the prepayment for the sale of the wafer fab
- At -24.3 million Euro, the operating adjusted free cash flow (without the effect for the sale of the wafer fab) was lower than the previous year as expected

## Working capital and net cash/debt

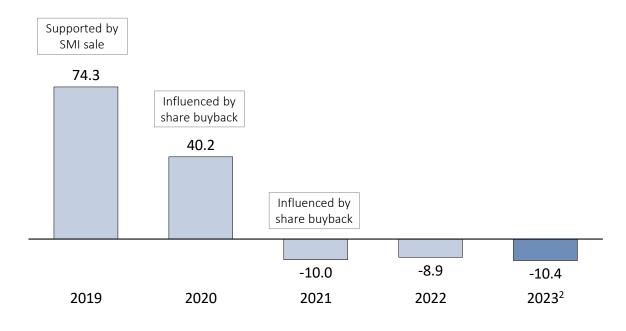

Working capital<sup>1</sup> (in million Euro, at the end of the year)

• At the end of FY 2023 working capital increased to 201.6 million Euro

#### **Net cash/debt** (in million Euro, at the end of the year)

 At December 31, 2023 Elmos recorded a small net debt position of 10.4 million Euro

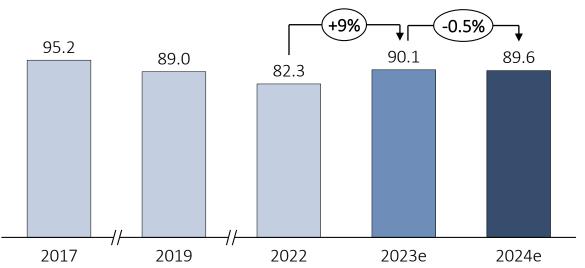

<sup>&</sup>lt;sup>1</sup>Trade accounts receivables plus inventories less trade accounts payables

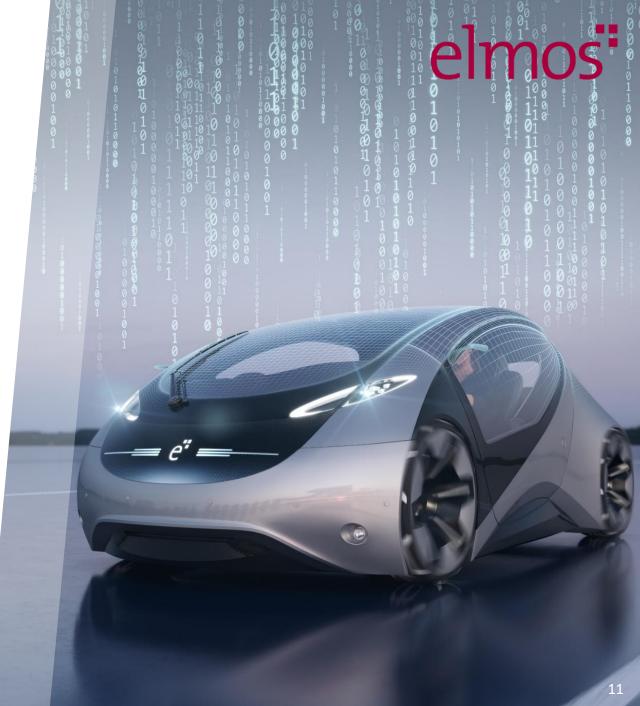

<sup>&</sup>lt;sup>2</sup> 2023 statement of financial position figures reported w/o IFRS 5 effects (disposal group Elmos Dortmund wafer fab)

## Market forecast

#### Automotive market

Light vehicle production in million units (IHS)<sup>1</sup>

## Guidance

Elmos FY 2024 guidance (as of February 15, 2024)

#### Guidance for FY 2024

Sales: 605 million Euro ± 25 million Euro

Operating EBIT margin<sup>1</sup>:  $25\% \pm 2$  percentage points

CAPEX (in % of sales):  $12\% \pm 2$  percentage points

Operating adjusted positive and significantly above the level free cash flow<sup>2</sup>: of the previous year (-24.3 million Euro)

Ø exchange rate: 1.10 EUR/USD

#### Notes to guidance 2024:

Besides current business performance and the order situation, the guidance is also based on the expectations and assumptions regarding general economic and geopolitical developments and specific industry and market developments.

Current expectations may be adversely affected in particular by geopolitical events, especially the war in Ukraine, the Middle East conflict or tighter sanctions and trade restrictions, market volatility, rising costs of and potential shortages for energy, material, services, and personnel.

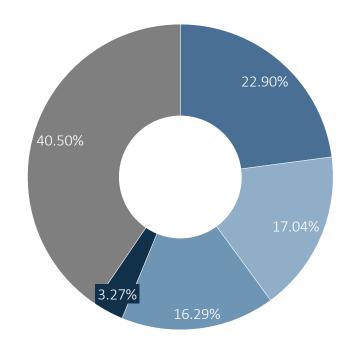

<sup>1</sup>EBIT margin excluding effects from the closing of the sale of the Elmos wafer fab to Littelfuse Inc., USA <sup>2</sup>Cash flow from operating activities less capital expenditures for/plus disposal of intangible assets and property, plant and equipment and excluding effects from the closing of the sale of the Elmos wafer fab to Littelfuse Inc., USA

## Shareholder structure set for long-term perspective

#### Elmos Semiconductor SE shareholder structure (February 2024)

- Weyer Beteiligungsgesellschaft mbH and related parties¹

## ESG@Elmos

#### Sustainability strategy & materiality analysis

For Elmos, sustainability is an integral part of our corporate strategy, management processes and business goals.

Awareness of **social & ecological responsibility** has been firmly anchored in our culture for years and is reflected in many activities, projects and measures.

The foundation of our ESG strategy is a materiality analysis based on the UN SDGs.

Elmos Group: 6 of the 17 SDGs were identified as important:

Elmos Foundation makes an essential contribution to 6 additional UN SDGs:

We have already implemented many **activities** in all three areas of sustainability – **environmental**, **social and governance** – and we will continue to work on making an even **more positive contribution to our society and environment** in the future.

Elmos Foundation

#### ESG product matrix & product contribution<sup>1</sup>

		Contribution to increased			
		environmental protection and efficiency	safety and health	comfort and well-being	
	Automotive				
	Airbag	low	high	low

	Smart home	high	medium	high	

- 72% of Group sales make a substantial contribution to environmental protection
- 76% of Group sales enhance safety and health
- 56% of Group sales increase comfort and well-being

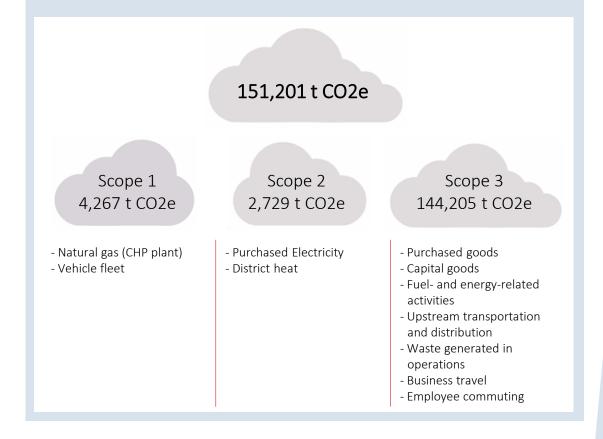

<sup>&</sup>lt;sup>1</sup> Based on data for 2023. All applications with a high or medium impact are considered to make a significant contribution.

## Elmos corporate carbon footprint & climate targets

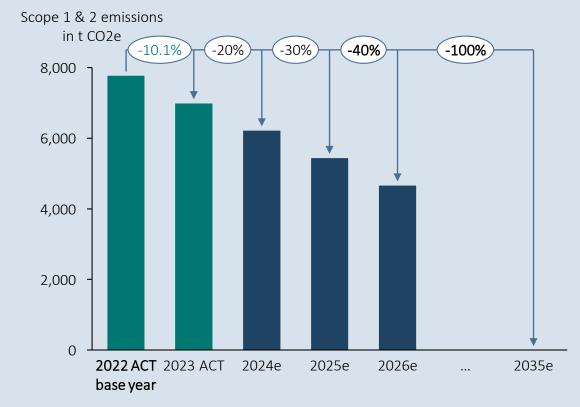

#### Elmos Corporate Carbon Footprint 2023

- The calculation of the Corporate Carbon Footprint (CCF) is based on the international reporting standard **Greenhouse Gas (GHG) Protocol**.
- The CCF represents Elmos as a fabless company as this is our future setup

#### **Elmos Climate Targets**

- Elmos wants to reduce its GHG emissions as a fabless company for its own activities (Scope 1 & 2) by 40% until the year 2026 compared to the base year 2022.
- Elmos wants to become **climate neutral** for its own activities (Scope 1 & 2) by 2035.
