1. What is Elmos?

Elmos develops, produces and markets semiconductors and sensors, primarily for use in the automotive industry. Our components communicate, measure, regulate and control safety, comfort, powertrain and network functions. For over 30 years, Elmos innovations have been bringing new functions to life and making mobility worldwide safer, more comfortable and more energy efficient.

In the year 1984, Elmos was founded as one of the first enterprises at Dortmund Technology Park. Today, Elmos has international locations in Europe, the U.S., and Asia with altogether more than 1,100 employees, 750 of whom work at the production location in Dortmund.
